**PHOTO 1**

**Date:** 10/01/09

**Direction:** Northwest

**Photographer:** Paul Jones

**Description:** View of Electro Treatment Building, associated out-buildings, former above-ground storage tanks, and Yellow-Stain Area soil.
PHOTO 2

Date: 7/13/09

Direction: Southeast

Photographer: Robyn Kelly

Description: View of Guayule Process Area structure.
PHOTO 3

Date: 7/13/09

Direction: Southwest

Photographer: Robyn Kelly

Description: View of above-ground storage tanks, contents unknown, located adjacent to Guayule Process Area.
PHOTO 8

Date: 7/13/09

Direction: Northeast

Photographer: Robyn Kelly

Description: View of suspected subsurface unit (likely a type of septic system). Subsurface boring SB-7 was located in proximity to this feature.
PHOTO 9

Date: 7/13/09

Direction: Down

Photographer: Robyn Kelly

Description: View of exposed subsurface piping located adjacent to the east side of the Electro Treatment Building. It was suspected that this piping formerly connected the aboveground storage tanks located at the Electro Treatment Building to the Guayule Process Area.
PHOTO 14

Date: 10/01/09

Direction: Southeast

Photographer: Robyn Kelly

Description: View of waste soil pile and associated drum from which samples SS-71 and DM-02 were collected, respectively. Both SS-71 and DM-02 contained metals at concentrations above RCRA hazardous waste thresholds.
Description:
One of four bunker structures on Site. All are located in the southern third of the property. All are located on raised earthen piles.
Description:
View of general condition of structures on Site. This view is of the buildings located at the north end of the buildings along the eastern property line.
